**Frontend:** HTML5, CSS, JavaScript(ES6+), TypeScript, Tailwind CSS, SASS, ReactJS, NextJS, React Native, Redux, Redux Toolkit

**Backend:** NodeJS, NestJS, ExpressJS, REST APIs, GraphQL, MongoDB, SQL, Git/Github, WebRTC, Socket.io, Firebase, Flask

**Soft Skills:** Presentation, Problem-Solving, Teamwork, Adaptability

## Experience

**Software Engineer** ([Texinity Technologies](#))

**Islamabad, Pakistan** 10/2024 - Present

- Lead end-to-end mobile app development with React Native and Node.js.
- Deployed scalable apps with 0% post-launch critical failures.
- Maintained 90%+ positive feedback for timely app delivery.

**Associate Software Engineer** ([Texinity Technologies](#))

**Islamabad, Pakistan** 05/2024 - 09/2024

- Developed high-performance web applications with Next.js and Node.js.
- Developed cross-platform mobile applications using React Native.
- Delivered scalable and maintainable code through best practices and robust architecture.

**MERN Stack Developer** ([Texinity Technologies](#))

**Islamabad, Pakistan** 07/2023 - 08/2023

- Implemented modern HTML, CSS, JavaScript (ES6) for efficient coding practices.
- Gained experience in ReactJS, React Native, Node.js, and Socket.io.

## Projects

### Namemaster

- Reengineered mobile app, achieving a 20% performance gain and boosting user retention.
- Refactored app codebase, increasing code maintainability by 35%.
- Enhanced app responsiveness for seamless performance across devices.

### Digital Tasbeeh Counter

[Play store link](#)

- Led the entire development process from scratch, handling everything from architecture to deployment.
- Implemented theming, multilingual support, and in-app purchases for enhanced user experience.
- Integrated Google Places API to enhance location-based features, ensuring smooth usability.

### Ride-Sharing App

- Developed a real-time ride-sharing system with Google Maps integration.
- Designed a lightweight architecture, reducing app crashes and improving stability.

## Education

**BS Computer Science** [COMSATS University, Islamabad](#)

**Islamabad, Pakistan** 2020-2024

Relevant Courses: Object-Oriented-Programming, Data Structures and Algorithms, Databases

## Achievements & Awards

- 1st Position in Final Year Project (AI Category) at COMSATS Project & Career Expo SP24
